SAVANT SOLUTIONS INC.

CAPABILITIES STATEMENT

Unlimited-Licensed Electrical Contractor · NC License #U.36332 · NAICS 238210 · CSI Divisions 26 & 27

COMPANY OVERVIEW

Savant Solutions Inc. is a highly efficient, unlimited-licensed electrical contractor based in Raeford, NC. Specializing in heavy commercial installations, rapid-response diagnostic service, and structured data cabling, we provide general contractors, property managers, and facility directors with top-tier electrical and IT infrastructure expertise. With a streamlined operational model, we execute complex commercial build-outs and specialized system installations with precision and zero wasted time.

CORE COMPETENCIES

- **Commercial Electrical Infrastructure:** Heavy conduit (EMT/Rigid) routing, MC cable pulling, commercial lighting/device upgrades, and industrial machinery power connections.
- **Low-Voltage & Data Infrastructure:** Comprehensive structured cabling (Cat6/6A), multimode & singlemode fiber optic installation/testing, Point-to-Point (PTP) wireless campus backhauls, data room and MDF/IDF rack build-outs, and commercial VoIP/PBX phone systems.
- **Power Distribution:** High-capacity panel swaps, service upgrades, and commercial switchgear installation.
- **Standby Power Systems:** Complete Generac generator sizing, installation, and integration.
- **EV Infrastructure:** Commercial and residential Electric Vehicle (EV) charging station deployment.
- **Agile Service & Troubleshooting:** Dedicated rapid-response capabilities for diagnostic commercial service calls.

OUR DIFFERENTIATORS

- **In-House Data & High-Voltage Expertise:** Unlike traditional electrical contractors, we possess specialized expertise in low-voltage and structured data cabling. This allows general contractors and facility managers to use a single trusted vendor for both primary power distribution and IT network infrastructure.
- **Uncapped Legal Capacity:** Holding an Unlimited Electrical License in North Carolina (License #U.36332) ensures no project is legally or financially out of our scope.
- **Meticulous Workflow:** We utilize off-site material pre-kitting and specialized truck-stocking systems. Our technicians arrive fully equipped, eliminating supply-house runs and keeping your project strictly on schedule.
- **Minimal Operational Disruption:** We specialize in executing complex electrical upgrades within active commercial and industrial environments. Our phased approach ensures that critical work is completed with maximum safety and zero disruption to daily facility operations.

COMPANY DATA & CREDENTIALS

Base of Operations	Raeford, NC
Primary Service Area	Greater Fayetteville, Fort Bragg, and surrounding Sandhills regions (Hoke, Cumberland, Harnett, and Sampson Counties).
Extended Service Area	Raleigh-Durham (Triangle) and Charlotte Metro regions. Fully mobilized and legally equipped for statewide North Carolina projects.
NAICS Code	238210 — Electrical Contractors and Other Wiring Installation Contractors
CSI Divisions	Division 26 (Electrical) & Division 27 (Communications)

LICENSES & SAFETY CERTIFICATIONS

- NC Unlimited Electrical License (License #U.36332)
- NASCLA Electrical Journeyman Certification
- OSHA 30-Hour Construction Safety Certification (Active)
- OSHA 10-Hour Construction Safety Certification (Active)
- BICSI Technician (TECH) Credential (Application Submitted / Pending)

INSURANCE COVERAGE

General Liability	$2,000,000 Per Occurrence / $4,000,000 Aggregate
Commercial Auto	$1,000,000
Workers' Compensation	$1,000,000

PAST PERFORMANCE / KEY PROJECTS

- **Campbell's Soup Production Facility (Maxton, NC):** Executed comprehensive electrical modifications for a warehouse expansion, including the relocation of 100 high-bay light fixtures, electrical disconnection and demolition for heavy manufacturing machinery and industrial HVLS fans, and the installation of new expanded lighting systems.
- **Fayetteville Public Works Commission (PWC):** Structured cabling and data infrastructure contractor for the region's municipal utility across four years of continuous performance. Scope spans PWC's facility portfolio, including main campus buildings and water and wastewater treatment plants — multi-building, multi-site cable installation and network infrastructure executed inside active critical-infrastructure facilities without interruption to utility operations.
- **Fort Bragg Federal Credit Union / Greater Fayetteville Chamber:** Performed a complete commercial lighting and power upfit for the Chamber's new facility. Retrofitted 89 legacy fluorescent fixtures with high-efficiency LED troffer panels, expanded branch circuit power for numerous new receptacles, and installed dedicated electrical feeds for exterior facility signage.
- **Carrier & Campus Infrastructure Deployments:** Executed carrier-grade fiber optic pulls and infrastructure projects (including Google Fiber in Raleigh and Spectrum contract installs) along with multi-building Point-to-Point (PTP) wireless network bridges.

KEY PERSONNEL

- **Jacob Zepp | Owner & Qualifier:** Licensed NC Unlimited Electrical Contractor with 8+ years of expertise in commercial electrical build-outs, computer science (A.A.S.), fiber optics, and advanced data cabling infrastructure.
- **Seon Jack | Lead Field Technician:** 5 years of commercial construction and low-voltage experience, specializing in structured cabling, power distribution, and on-site code compliance.
